

Member Networks Annual Report Form

Reporting events held in 2018 and those planned for 2019

In line with the rules for member networks and to enable us to better support our networks and their activities all member networks (Local Sections, Interest Groups and Analytical Division Regions) are asked to complete this form and return it to networks@rsc.org or by post to: Networks Team, Royal Society of Chemistry, Thomas Graham House, Science Park, Milton Road, Cambridge, CB4 0WF.

Deadlines

Deadline for receipt of Financial Accounts by RSC Finance Team: **8th February 2019**
Deadline for receipt of Annual Report by Networks Team: **25th February 2019**

If there is any reason that your committee will **not** be able to meet either or both of these deadlines please inform networks@rsc.org as soon as possible.

This report will be uploaded to your web page to share with the members of your network. Staff will also share a digest of all member networks activities taken solely from these annual reports with appropriate staff and governance boards and committees including Division Councils with similar interests.

Diversity & Inclusion

Please ensure this section is completed

Our trustees are aiming to embed diversity and inclusion in all of our activities and networks. Section 8 of our [online network handbook](#) contains more information to support our networks in achieving this and our Diversity team have [online Guides for Networks](#) that include actions and considerations for committees, and guides for inclusive communications and running inclusive events.

Please comment on how your group is showing that it has embraced Diversity and Inclusion within its practices. If you have diversity data from your events or activities, please include this information above.

The ECG fully subscribes to the RSC policies on Diversity and Inclusion and works hard to arrange its events to be as inclusive as possible. Committee members are able to join meetings using electronic conferencing facilities enabling those who are less able to travel to the venue to participate. In addition:

- We currently have 6 out of 13 female committee members so there is a good gender balance across the committee
- We have members aged from their 20s to their 60s on our committee
- We open any application for new committee members to the whole ECG community and this year both vacancies were filled by women
- We provide discounted registration at our annual Distinguished Guest Lecture for Group members and student members, and make special arrangements for retired members or people in other circumstances
